Ihechi Festus

Front End Web Developer

Front End Web Developer with very good research skills. As one who believes in becoming better with each passing day, I am constantly seeking to better my skills and would like to be part of an organization that provides an opportunity to leverage my existing web design and development skills to create great products with a good user experience. Through experience, I've found that I am a team player who takes an active part in teamwork and collaborations.

EDUCATION

Bachelor of Engineering(B.Eng)
University of Jos

08/2015 - 11/2021   Jos, Nigeria

Courses
- Electrical and Electronics Engineering.

WORK EXPERIENCE

Freelance Front End Web Developer
Unique Help Global Concept Limited

11/2020 - 03/2021

Achievements/Tasks
- I was in charge of the company's website, particularly in building the front-end aspect of the site as well as managing it.
- Part of my duties ranged from designing the website to writing content for it and also bringing the said designs to life through code.
- Worked with a backend developer on the project through whom I learned a great deal about interacting with the backend through APIs.
- I also gained a lot of experience on some work ethics of startups while also ensuring features were made ready before deadlines.
- Other tools I learned to use are Postman (For API testing) and Google Analytics (To monitor site's engagements and visits)

Contact : Mr. David Dominic   - 09031393351

Front End Web Developer (Student Intern)
Nhub Foundation

08/2019 - 02/2020   Jos, Nigeria
